MESSAGE

Vigilance Awareness Week (27th October to 2nd November 2020)

The Commission observes the Vigilance Awareness Week to emphasize the importance of integrity in public life. We are fully committed to implement the policy of "Zero Tolerance against Corruption".

"सतर्क भारत, समृद्ध भारत - Satark Bharat, Samriddh Bharat (Vigilant India, Prosperous India)" has been chosen as the theme this year. Development and progress of the nation takes place when individuals and organisations are vigilant in safeguarding integrity as a core value.

The Commission believes that citizens and organisations must look inwards at a time when the world is facing an unprecedented crisis. All organisations may focus on improvement of internal processes and activities during this year. Systemic improvements may be carried out to improve the delivery of public services in all organisations. Training and capacity building of staff is an important component supporting this objective. We have been encouraging organisations to implement these initiatives.

The Commission appeals to all citizens to actively work towards promotion of integrity in all aspects of life for the progress of the country.

CHIEF VIGILANCE OFFICER, IRCON

MESSAGE

Vigilance Awareness Week (27th October to 2nd November 2020)

IRCON is a leading construction company having National and International presence. It is known for its excellent work culture and high professional ethics.

There has been a constant endeavour to enhance transparency and probity to promote excellence and integrity in the organization.

Like every year, this year, “**Vigilance Awareness Week**” is being observed with the theme (“सतर्क भारत, समृद्ध भारत – **Satark Bharat, Samridh Bharat (Vigilant India, Prosperous India)**”).

On this occasion, we at **IRCON** should focus on improving internal processes and pledge to work with total honesty and integrity to fight corruption and combat future challenges to help the company in achieving new heights of success.

(Mamta Sanjeev Dubey)
Chief Vigilance Officer

A STEP TOWARDS PAPERLESS OFFICE

IRCON envisions a paperless office, with increased transparency, efficiency and accountability.

eOffice (eFile) Solution has been implemented across the Organization w.e.f. 03.01.2020. It is a workflow based system that includes more efficient electronic movement of files in addition to feature of manual handling of files. This system involves various stages of working in a file, including the diarisation of inward receipts, creation of files, movement of receipts and files and finally, the archival of records. With this system, the movement of receipts and files has becomes seamless and there is more transparency in the system since each and every action taken on a file is recorded electronically. This simplifies decision making, with required information available at one place.

VISITOR MANAGEMENT SYSTEM

Ironcon is using electronic Visitor Register Facility that has replaced the manual process of filling up of visitor register. Printed passes are used instead of manual pass, which can be easily carried by the visitor. The solution is used to keep track of the people visiting IRCON Corporate Office. This ensures that the premises is safe from unwanted and fraudulent people.

CONTACTLESS ATTENDANCE SYSTEM

IRCON has started contactless attendance system (as a proof of Concept) in which the face of the employee is scanned to mark their attendance. By using such a contactless face recognition system, the admins can conduct facial scans and monitor the in and out time of employees and visitors.

This AI face recognition system automatically updates check-in and check-out time of the employees on the basis of their facial image. This information can be accessed by the admins through the dashboard. With this contactless attendance system working on AI face recognition, employers can monitor the productivity of their employees based on the number of hours spent in the office.

VIRTUAL MEETINGS

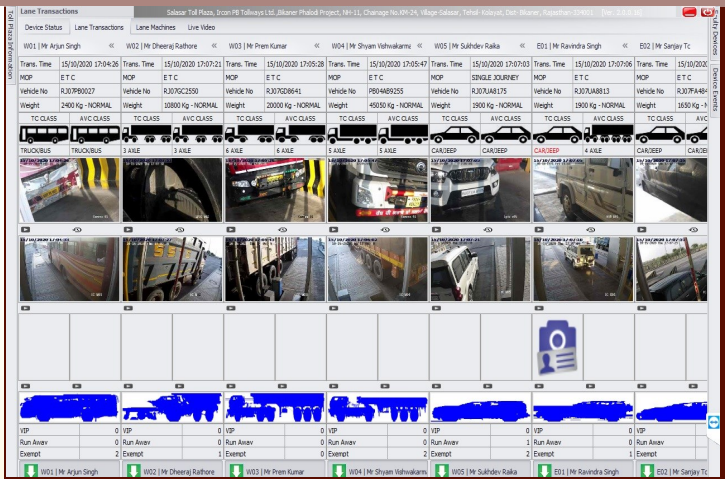

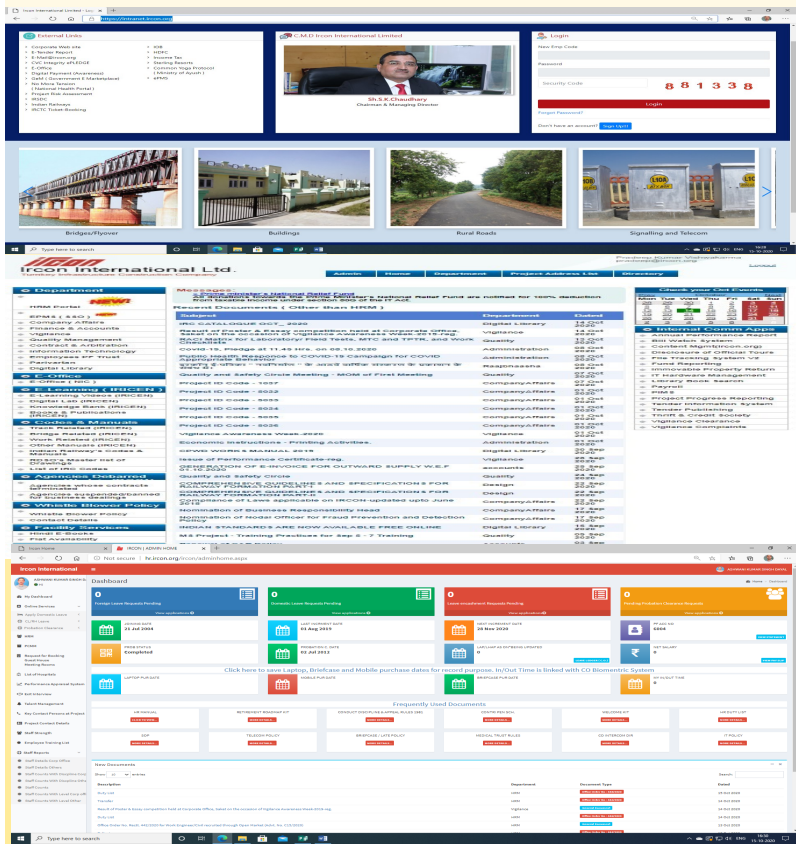

Ironcon is using Google Meet as a virtual meeting Platform. Virtual meetings are now integrated into organization workflows and now have a permanent place among employee productivity tools. Through screen sharing, multimedia sharing, and recording of conference content, virtual meetings participant are delivering and receiving unprecedented levels of insight.

Leveraging Technology

EMPLOYEE SELF SERVICE WEB SOLUTION

Employee self-service web solution, a solution for more employee empowerment, is used by all employees of Ircon for access to office orders, circulars, payrolls, online leave application, vigilance complaints, vigilance clearance, performance appraisals, and benefits information. Employees can access the web solutions from anywhere and at any time.

FULLY AUTOMATED, END-TO-END ELECTRONIC TOLLING SOLUTION

Electronic Tolling Solution is implemented at Toll Plazas to provide a fully automated, end-to-end transportation solution that significantly improves revenue collection and efficiency. It manages the electronic charging of tolls based on tags (electronic tolls), ranging from the free passage of vehicles through the infrastructure to the management of customer accounts (post-payment, pre-payment, fleets and infrequent users) as well as the management of possible violator.
